#### 1. INTRODUCTION

The **Global Party Survey, 2019** (GPS) is an international scientific study conducted by independent scholars at Harvard University which is designed to compare political parties around the world.

We are contacting you as someone familiar with politics in **\${e://Field/CountryExpertise}.** We want to learn the current position of political parties in the lower (or single) House of Parliament/Congress in \${e://Field/CountryExpertise}.

Participation is by invitation only. The survey usually takes around 12 minutes to complete. Your answers are anonymous and all replies will be treated with the strictest confidence. You are welcome to contact us by <a href="mailto:emailt

Many thanks for all your invaluable help and contribution to this study.

#### **3.GENERAL PARTY CULTURE AND ETHOS**

Parties can be classified by their current stance on ECONOMIC ISSUES such as privatization, taxes, regulation, government spending, and the welfare state.

Those on the economic LEFT want government to play an active role in the economy. Those on the economic RIGHT favor a reduced role for government.

### Where would you place each party on the following scale?

Parties can also be classified by their current social values.

Those with LIBERAL values favor expanded personal freedoms, for example, on abortion rights, same-sex marriage, and democratic participation. Those with CONSERVATIVE values reject these ideas in favor of order, tradition and stability, believing that government should be a firm moral authority on social and cultural issues.

Parties can also be classified by their current use of POPULIST OR PLURALIST rhetoric.

POPULIST language typically challenges the legitimacy of established political institutions and emphasizes that the will of the people should prevail.

By contrast, PLURALIST rhetoric rejects these ideas, believing that elected leaders should govern, constrained by minority rights, bargaining and compromise, as well as checks and balances on executive power.
